ton Authorities.

[BY ASSOCIATED PRESS.]  
Washington, D. C., April 4.—It is authoritatively declared at the White House today that the real reason for E. H. Harriman's interest in the election of the New York state ticket in New York in 1904 was that he desired to advance his own ambitions. It is asserted that Harriman wanted the position of United States senator, now filled by Senator Depew and that this was the reason why he was anxious to have him appointed am-

## CLEAR MYSTERY OF LOSS OF THE FUNDS

Banker's Clerk Made a Mistake and  
the Affairs Cause Considerable  
Excitement.  
[BY ASSOCIATED PRESS.]  
Fond du Lac, April 3.—The mystery surrounding the loss of \$5000 from the Carnegie Library fund was discovered by an expert and was explained this afternoon by G. O. Galloway, treasurer of the fund. It appears that a clerk in Mr. Galloway's employ at the National Bank credited Mr. Galloway with the amount by mistake. He immediately notified the committee he would refund the money and pay interest upon it.

bassador to Paris. The inference from Harriman's attitude, according to the statement made at the White House, was that if Depew could be induced to go to Paris Governor Higgins was prepared to appoint him to the vacancy. An important conference was held at the White House this afternoon on the subject of trust prosecution now under way by the department of justice. Those present included Root, Bonaparte, Garfield, Cortelyou. The so-called tobacco trust was one of the subjects discussed.

Dr. Robbins, pronounced the ritual and the bride was attended by her sister, Miss Helen Clarke. Mr. Seals is cashier of the Traders' Bank at Birmingham.

He was struck on the forehead by a falling object, having reached his heart, and he died at seven o'clock.

**Result of Beloit Election.**  
Two supervisors and five aldermen were elected in Beloit yesterday after hot personal fights, no party tickets being in the field. Charles Klein, who last fall sought the office of clerk of the Rock county circuit court, was chosen supervisor by a majority of two votes over B. E. Treadway, the present official and in the first ward George B. Merrill defeated C. D. Cannon.

Alderman Glazer lost in his race for re-election and the first ward will be presented in the city council by Joseph Martin. E. N. Burlingame won from E. W. Burger in the second ward aldermanic race; Homer Leffingwell beat Clarence Inman in the third; Frank Barber defeated Alderman Elmer Thompson in the fourth and Stewart Mellick was victorious over John Risdelfsch in the fifth.

There is rejoicing in the office of the Daily News today, three of the winning aldermanic candidates and the two successful candidates for supervisor having been supported by The News, while only two of the new aldermen were supported by the Free Press.

**New Divorce Action:** In circuit court Mrs. Effie J. Arnold has commenced an action for divorce from Adam Arnold and custody of the daughter, Pauline. The ground is desertion.

## AN INTERNATIONAL CHAMPIONSHIP BOUT

Abe Attell, Holder of American Featherweight Title, to Meet Spike Robson of England.  
[SPECIAL TO THE GAZETTE.]  
Philadelphia, Pa., April 3.—The arena of the National Athletic club is to be the scene of an international championship fight tonight and as a consequence, the fight followers here are on the tip of expectation. Abe Attell, featherweight champion of America, is to defend his title against Spike Robson, the featherweight champion of England. Attell, whose record during the past few years is an almost unbroken string of victories, is naturally the favorite. Robson is something of an unknown quantity on this side, but those who have seen him in action speak highly of his work. The fight is limited to six rounds with no decision. If both fighters are on their feet and in fair condition at the end of the go the result naturally will be unsatisfactory so far as deciding the international championship. Both of the little fighters have been training faithfully since the articles were signed and the word given out at their respective training quarters is to the effect that each is in the pink of condition. At noon today, according to the articles of agreement, they weigh in at 124 pounds. The club expects a large crowd on hand to see the mill, including delegations from New York and other out-of-town points.

## FIREWORKS WITHOUT FIRE ARE PERFECT

Massachusetts Inventor Makes Wonderful Effects Possible by Using  
Steam and Electricity.

[SPECIAL TO THE GAZETTE.]  
Lynn, Mass., April 3.—An engineer of this city has just perfected an invention which is declared to surpass anything in the way of colored illumination the world has yet seen. The idea provides for the use of steam and electric light in conjunction in a way to put all ordinary pyrotechnic effects in the background. Briefly, he arranged a big array of naval searchlights so as to throw their beams on a series of steam jets and clouds issuing from various sized pipes. The latter are set in a great instrument driven by a powerful boiler and controlled by keys, somewhat in the fashion of an organ. Colored discs and devices are placed over the searchlights and operated in conjunction with the steam machine. All kinds of rocket effects can be produced by the light on the steam jets while bursting shells and other devices are imitated on the rolling clouds above. Set displays of the most artistic description can be produced at will, and the color combinations are unlimited. Moreover, the cost is scarcely one-half that involved by ordinary fireworks displays.

**Louisiana Fruit Growers.**  
Lake Charles, La., April 3.—There was a large and representative attendance at the opening here today of the annual meeting of the Louisiana Horticultural society. President C. W. ## NOT LEGALLY BUT MEDICALLY INSANE

Testimony of Professor of Nervous  
Diseases at Yale University  
Medical College.

[BY ASSOCIATED PRESS.]  
New York, April 3.—Before the Thaw lunacy commission today Dr. Allen Ross Dietendorf, professor of medical nervous diseases at Yale university, testified that from what he had seen of Thaw and his letter writings, he was of the opinion that Thaw was not now capable of rightly understanding his own position, nor of appreciating the nature of the charge against him, nor rationally advising his counsel. He declared Thaw was medically, but not legally, insane when he killed White. He admitted that he had never personally examined Thaw, but thought him suffering from paranoia.  
The Thaw lunacy commission went into an executive session at 12:16 for a final mental and physical examination of the defendant.

# "PROFESSOR OF AMERICA" IS EIGHTY-FIVE TODAY

Edward Everett Hale Enjoying Excellent  
Health At Advanced Age--To Be  
Given \$50,000.

[SPECIAL TO THE GAZETTE.]  
Boston, Mass., April 3.—Dr. Edward Everett Hale, preacher, publicist and man of letters, was eighty-five years old today. Since his appointment as chaplain of the senate Dr. Hale has spent his winters in Washington, but his summers he continues to pass at his home in Roxbury.  
Despite his great age Dr. Hale is as vigorous as he was a quarter of a century ago, and his mental faculties are unimpaired. He is a great lover of outdoor life and to this he attributes in great measure his splendid health in his old age.  
In celebration of Dr. Hale's eighty-fifth birthday anniversary the Lend-a-Hand society, which Dr. Hale founded, is seeking to raise a fund of \$50,000 for the old age of its founder. The work is in charge of an executive committee of which Kiddle, Peabody & Co., the Boston bankers, are the treasurers.  
No living man has done more to raise the moral standard of America than has Dr. Hale. He has been a conspicuous figure in all kinds of reform and rescue work, both in Boston and in many other distant cities. From the time he received his first license to preach he has been a conspicuous figure in all the most advanced forward movements in charity and education.  
Dr. Hale refuses to be called a clergyman. He prefers to be designated only as a "Christian minister." The title of "Professor of Americanism" to his generation has been applied in referring to Dr. Hale, and it, perhaps best, describes his most conspicuous efforts. His entire career, his hereditary influences and environment and his natural inclinations and choice of friends all tended to make him a patriotic American citizen, and fitted him to do for the American public what he conceived his "professor of America" as doing in a college—showing men that there is such a reality as Americanism, that there are certain principles which belong to the American government, that there are certain feelings which are experienced by none but an American.

## CLINTON'S CUP NO LONGER DRY

Afton Also Went No License—Plymouth, Orfordville, Albany and Brodhead Go Dry.

After being dry for two years, Clinton voted to license saloons yesterday. The victory was won by a majority of 40 votes. W. W. Dalton was elected mayor by a majority of 55 over C. C. Smith, the "No License" candidate.  
License carried in Afton by 30 majority. Plymouth went "No License" by 60 votes for the first time in about 20 years. Orfordville and Albany are also in the "No License" class and Brodhead went dry by 41 votes.

The regular republican ticket was carried in the town of Center. W. O. Jewell was re-elected chairman; C. H. Whitmore, clerk; John Goldsmith, treasurer; J. C. Lyons, assessor, and Ezra Fish and William Samaan, side supervisors.  
In the town of Janesville W. E. Shoemaker was re-elected chairman and P. F. McGee and Ben Parish, side supervisors. Ninety votes were cast—all one way.  
In Afton the democrats carried everything, but the office of town treasurer to which F. C. Miller, republican, was elected. F. Rehfeld was named as chairman; James Connell and

The entries come from all parts of Georgia and neighboring states and from several points in the north and west. The exhibition is under the general management of George H. Wilkins of the Chicago Horse Show association. The judging began this afternoon and will continue till the close of the exhibition tomorrow.

Janesville Daily Gazette, Wednesday, April 3, 1867. Municipal Election.—Our charter election yesterday drew out a full vote, and resulted in the success of every republican candidate except an alderman and justice of the peace. The defeat of these two candidates is attributed solely to local and personal causes; and was brought about by republican votes. The re-election of Dr. Henry Palmer as mayor, over J. B. Doe, Esq., by 226 majority, is exceedingly gratifying after all the efforts put forth by the copperhead Johnsons to carry their man. Last year Dr. Palmer's majority over J. B. Doe was only four showing a gain of 22, which ought to be quite satisfactory to all concerned.

Below we give the results in all the wards except the first, which we were unable to obtain:

## What Are These Costly Training Trips For?

PLAIN BUSINESS VENTURES.

Hard Headed Managers Are Not Giving Players a Pleasure Jaunt by Any Means—These Trips a Necessity—A Day's Programme.

Why do the baseball players go south to train?

Why do owners of baseball clubs invest six or seven thousand of last year's hard earned dollars to prepare for this season's campaign?

Is it to give the players a pleasure jaunt in a semitropical climate, to furnish a prelude of enjoyment to a season of strenuous battle, to allow the players to stuff and fatten like rainy day toads for one brief month and then to bring them back to the northern circuit and "whip" them into condition during the first weeks of the actual playing season?

No. Decidedly it is not.

With the owner and investor baseball is a business. With the player baseball is a profession.

Baseball is a business, and in this the year of 1907, and in previous years recently, the game has been elevated until it is a proposition to be faced with tact and a keen consideration of every small cog that goes to make up a part of the great baseball machine that excites and holds the admiration of the most progressive country in the world today.

The baseball of today is not the baseball of fifteen or twenty years ago. The baseball player is taken south to train for a season of arduous endeavor, a season that brings the greatest possible strain upon mind and muscle.

When, then, hard headed managers invest several thousands of dollars in a training trip for a team it may be relied upon that that training trip is an absolute necessity. This fact is fully appreciated by the player. He knows he is there for business and not for an outing. He is hemmed about by rules of propriety and personal conduct that he must heed and does heed if he makes good.

From the moment the player puts in his appearance and salutes his manager.

Bucharest Greatly Excited and Many Arrests Are Made.

Berlin, April 3.—A dispatch to the Tageblatt from Czerowitz, Austria-Hungary, not far from the Roumanian frontier, says that intelligence has been received there from Bucharest to the effect that a plot has been discovered at the Roumanian capital against King Charles and his government.

The city of Bucharest, it is added, is in a state of great excitement, peasants are not permitted to enter the capital and numerous arrests have been made.

Bucharest, April 2.—It is officially announced that tranquility has been reestablished throughout the entire country. Now that the peasants understand the measures proposed by the government for the amelioration of their condition, the agitation is dying out.

Michigan Traction Men to Strike.

Kalamazoo, Mich., April 3.—Four hundred motormen and conductors of the Michigan United States Railway company of this city and Battle Creek on the Battle Creek & Jackson and Michigan Traction Interurban lines the latter about 75 miles long, Tuesday night voted to go on a strike Wednesday. The men demand 25 cents an hour instead of 18 cents on city lines; 25 cents instead of 23 cents on interurban lines; recognition of the union; and settlement of the differences by arbitration. The company has agreed to a one cent an hour increase but nothing more.

YANKEE INGENUITY NOT DEAD.

Ample Proof of its Possession in State of Connecticut.

William G. Ward, a merchant, recently had a stove, in which a coal fire was burning, moved with other goods from his old home on Platt's Hill, to his present apartment. He did not want the trouble of making a new fire, thereby further exemplifying his Yankee ingenuity. While driving through North Hartland, a farming village 13 miles distant from here, he stopped at the home of E. J. Barnes to get warm. He said he sold pianos, and Mr. Barnes became interested. Finally Mr. Barnes said he wanted to hear the tone of the instrument before he made a bargain. Stepping to the telephone, Ward called up his store here, had a \$350 instrument rolled up close to the telephone transmitter and then ordered a saleswoman, Miss Elizabeth Harnett, to play a few selections, which she did. The music over the wire entranced the family, the deal was closed and the piano was shipped to the Barnes farm—Winsted (Conn.) Cor. New York World.

## "Same Old Story"

A patient recently consulted Dr. Richards about needed family work. Had been paying \$10 each for gold crowns and was tired of the burden. Said had been doing so for social acquaintance and friendship sake, but couldn't see the use any more of paying twice as much for work as was necessary.

This is the way people look at it. When they think.

And the time most people think is when the bill is presented for payment.

You may have the very best dental work obtainable in the city for \$5 a tooth and you may pay \$10 for the very same if you go blindly along. It's all in the way you go.

Where you go for your dentistry. Will it not pay you to choose the right dentist before you begin the work?

## EXTENSIVE PLAN FOR NEW WORKS

BUILDING MAY BE STARTED IMMEDIATELY AT HIAWATHA SPRINGS.

## RIVER AS SUMMER RESORT

New York, Chicago, Minneapolis, and Milwaukee Men Considering Summer Homes Here.

If satisfactory arrangements can be made for transportation facilities the coming summer will see the model bottling works of the Hiawatha Springs Company and the Louis N. Parks company of Minneapolis, erected at what is now known as Burr Springs, on the river. Mr. Parks is here today with several engineers and a contractor looking over the ground and upon the question of transportation only rests the proposition to erect one of the finest bottling works in the country. In fact Mr. Parks is quite hopeful that ground may be broken this month and the work of construction begun.

Many Products. Not only will the company bottle the Hiawatha Springs water in several different styles but they will also manufacture a host of down kinds of soft drinks themselves. Bottled imported ginger ale and foreign mineral waters brought to this country in bulk and at present bottled in New York city. Mr. Parks will also manufacture extracts and will bottle imported olive oil for the trade. All this is being done in the New York factory at present and while this factory will be kept open for the present, the entire western trade, which includes the Pacific coast, east to Chicago, will be cared for by the Janesville bottling works.

Big Proposition. It is a big proposition. One of the largest that has come to Janesville for many years. It means the expenditure of nearly seventy-five thousand dollars, the bringing to the city of many families, and steady employment the year round to a large force of men. The majority of the regular hands, aside from the needs of departments, chemists, and experts, will be local residents. It will mean a wholesale advertisement of Janesville throughout the country as the home of an immense bottling works handling only the high class goods.

Plans Complete. The plans as prepared call for a large building built of a material similar in appearance to the new front of the Merchants & Mechanics bank, surrounded by a tastefully decorated park and finished on the inside with Persian marble. A large auditorium is to be part of the interior equipment, large enough for good sized gatherings, the whole structure being a tasteful, magnificent building. Already the possible location of this structure has been selected by the engineers and when the transportation question has been decided work will begin.

Will be Costly. Plans under discussion call for the spanning of the river by a large suspension bridge, painted white, which will be used for the side track talked of from the Northwestern road. This bridge and side track it is estimated will cost in the neighborhood of eleven thousand dollars. The building itself will cost nearly fifty or sixty thousand dollars, complete with the costly machinery necessary and the grounds, and other improvements, will bring the total up to seventy-five thousand dollars.

Summer Resort. There is also under discussion the establishment of summer cottages upon the Hiawatha Springs grounds. A little colony of New York, Chicago, Minneapolis, and Milwaukee men who have seen the spot are delighted with it. The houses would be built as permanent homes, of cement or stone, and a club house would also be part of the proposed equipment. Golf links could be laid out with ease and the river bank improved to make navigation and fishing excellent.

Go Even Further. The project goes even further than this and proposed a sort of rest cure for tired business men who can get away for but a short rest. Bath houses, where the Hiawatha water will be used, and a complete equipment for a colony of city people who wished an outing surrounded by nature. These latter plans are now being simply discussed as the matter of transportation is the one problem to be settled before anything definite is done.

## THIRD WARDERS ASK FOR BETTER SCHOOL

Over 200 Have Signed Protest Against Present Unfit Condition of the Jefferson Institution.

Third ward residents to the number of over 200 signed the petition circulated by F. S. Winslow yesterday calling upon the board of education and the city council to remodel the old high school building and place it in as sanitary and modern a condition as the other new school buildings recently erected in the city; the work to be completed by Sept. 15, 1907. It is set forth in this petition that the present sanitary condition, ventilation, and general arrangement of the third ward school building is inimical to the health and welfare of the pupils and teachers who are obliged to pass one-third of their time therein. To place this building in proper condition, it is believed, will cost approximately \$23,000.

## M. F. GREEN BARN FIRED BY TRAMP?

Blaze in the Hayloft Did \$300 Damage to Roof of Building and Contents Last Night.

The fire department was called out last evening to attend to a blaze which had gained some headway in the barn located back of the M. F. Green residence on Washington street. Several tons of hay were consumed before the flames were finally quenched and the firemen were greatly handicapped in their work by sudden breaks in several lengths of interior hose purchased about six years ago. May-elect Heddles took an active part in the fire-fighting. The origin of the fire remains a mystery, though neighbors who claim to have seen a tramp skulking about the vicinity several hours previous, may have the key to its solution. Loss about \$300.

## RECEIVED RETURNS IN A FEW MINUTES

After the Polls Closed—On Bulletin Board by Eleven Minutes After Seven.

Almost before the majority of the people realized the city election was over, the returns from the different wards in the city were received at the Gazette office and tabulated and placed on the bulletin board for public inspection. It was three minutes after seven when the first returns were received from the third ward and a minute later the fifth came in by telephone; the second followed before the figures were finished for the fifth; and the first and fourth were received in fact, all the wards had been heard from inside six minutes, but it took five minutes more to tabulate and paste them on the board. Bulletins were also received on the Chicago election before six, announcing Busse had won and later two private messages from the Tribune and Examiner giving the same results only with definite figures. In fact, before eight, less than an hour after the city polls closed, the entire city and county tickets, as to county school superintendent, supreme court justice and Mayor of Chicago, had been given to the public. There was a large crowd of interested people at the office even before the returns were received and all expressed surprise at the speed with which results were announced.

## MAIL-ORDER WAYS

A BAD ADVERTISEMENT FOR CATALOGUE HOUSES.

## AT SCHOOL OF EXPERIENCE

Sooner or Later It Teaches Every Mail Order Patron the Error of Sending His Money from Home.

The methods of the mail-order houses are their worst advertisement. Sooner or later there will come a time in the experience of every purchaser of their goods when he will wish "he hadn't done it," when he will wish he had spent his money with his home merchants. This is not only because he will see the ruin wrought in his own community by the nefarious practice of sending the money of the community to the city, but also because of the practices of the mail order concerns.

The story in the catalogue sounds well. It sounds like you would get the identical thing you wanted and at a much lower price than you had imagined it could be bought for, and you order it. The purchase arrives, and when opened you feel that some mistake has been made, that the concern has sent you the wrong goods; it is not what you ordered.

Ah, but it is! The difference is between the way it actually looks and the way it sounds in the catalogue.

You explain that the goods you received is not what you ordered and ask for an accounting, and are told that it is you that is in error, that you got just what you ordered, and then if you are wise you buy of the

better to call upon our local dealer and look over his stock where we can see the goods before buying. There are then no errors in change or refunds to be haggled over across a 300-mile stretch.

Yes, it is better to trade at home. Our home merchant's guarantee upon an article means something, as he wants our good will. Keeping the money at home benefits home industries and thus, indirectly, us. We cannot expect to sell our products to the local merchant and do our trading in Chicago. It is all one-sided and some time we would have no local merchant to do our buying.

Catalogue houses, I have found from bitter experiences, are tricky. If those who are dealing with them will watch their purchases, they will find it so sooner or later. Our last deal, had it occurred here at home, would have been straightened out in five minutes and without feeling, but with you it takes me all winter to get my money back when the goods are not satisfactory, and even then I get only a credit card which is lost through studied carelessness upon the part of someone in your concern so that I have nothing to show for my claim.

Every man should trade at home if conditions admit of purchasing a good article at reasonable prices. If not, then he had better trade at the next town or city that his money may go to build up the country around him. He sends it to Chicago that it may go into profits of some big mail-order house until there is enough sucker money to build and endow some great charitable institution as a monument to the greatness of the mail-order man and the gullibility of the easy public.

I have already asked that you adjust the matter of our last deal. I want my money returned without further

## MRS. EDDY SPRINGS A COUP

SHE TURNS OVER HER ESTATE TO THREE TRUSTEES.

Wants Them Substituted as Plaintiffs in Place of "Next Friends" in Suit.

Concord, N. H., April 3.—A motion for leave to intervene, involving the substitution of duly appointed trustees as plaintiffs in place of the "next friends," was the answer of Mrs. Mary Baker G. Eddy, founder of the Christian Science religion, made through her counsel, in the suit brought to compel an accounting of her property. The motion, which was filed Tuesday, came as a distinct surprise.

By a deed of trust Mrs. Eddy has transferred her entire estate, with a few minor reservations, to three trustees, Henry M. Baker of Bow, Archibald McLellan of Boston, and Josiah E. Fernald of Concord. These trustees are bonded to the extent of half a million.

It is now claimed that Mrs. Eddy cannot be compelled to appear in court in connection with the pending litigation. The trustees are empowered to prosecute and defend, for the benefit of the estate of Mrs. Eddy, any suits at law or in equity, whether now pending or that may afterwards be brought with reference to any matter in which she may personally be interested. With the exception of Mr. McLellan, the trustees are not believers in the Christian Science doctrine. Mr. Baker is a former congressman, while Mr. Fernald is president of one of the banks in this city and has for several years acted as Mrs. Eddy's financial agent.

Frank S. Streeter, personal counsel for Mrs. Eddy and also counsel for the trustees to whom Mrs. Eddy has converted her property, made a statement in which he said:

"The creation of a trust to take charge of and care for all her property and business affairs was contemplated by Mrs. Eddy before she had any knowledge that the equity suit was begun or contemplated, and she had consulted me with reference thereto.

"As to the suit itself, it, as claimed, was begun for the sole purpose of protecting Mrs. Eddy's property interests, the 'next friends' should feel relieved from any anxiety."

Henry M. Baker, chairman of the trustees, in behalf of himself and his associates, gave out the following:

"Mrs. Eddy has relieved herself of the care of her estate that she may devote her time and thought without interruption to the advancing cause she represents. Her trustees accepted the trust several weeks ago and will not hesitate to protect and defend the estate entrusted to them. It need be against both plaintiffs and defendants in the pending suit."

## HARRIMAN REPLIES TO THE PRESIDENT

SHOWS HIS CALL WAS AT THE LATTER'S REQUEST.

## FUND WAS FOR NEW YORK

Money He Helped Raise Was Not for National Campaign—Asserts He Has Been Misquoted.

New York, April 3.—E. H. Harriman late Tuesday night gave out the following statement in response to the statement made public by President Roosevelt at Washington Tuesday:

"For many years I have maintained an intimate confidential correspondence with my friend, Mr. Sidney Webster. What I wrote him and what he wrote me was, of course, intended for our eyes alone. In the course of a letter which he wrote me in December, 1905, he warned me against being drawn into politics, and questioned whether I had any political or party instinct united to what he was pleased to call my 'business' instinct. This drew from me the reply to Mr. Webster's inquiry which, in a substantially correct form, has been stolen and published. This letter was written on January 2, 1906, at a time when no one could doubt the cordiality of my relations with the president."

## Letter Was Stolen.

"About ten days ago I was told that a discharged stenographer was trying to sell to some newspaper a reproduction from his notes of one of my private letters. I could hardly believe that any matter so obtained would be accepted or published, yet I made every effort to prevent it. When I learned late yesterday afternoon that a New York newspaper had a transcript of these notes, I notified the publisher at once of the facts, and urged upon his attention the gross outrage that the publication of it under such circumstances would involve. While deploring, of course, that the sacredness of a private correspondence should thus be violated, I cannot withdraw anything in the letter."

"I have read the president's statement. I am most anxious to treat him and his other utterances with consideration due to the high office which he holds. Nevertheless, I feel bound to call attention to certain things in regard to which he does me injustice."

Here Mr. Harriman quotes from several letters' extracts tending to show that Mr. Roosevelt repeatedly asked him to call on him at Washington, and from one showing that when he did call, their conversation was chiefly concerning New York politics.

## Money Was for New York.

Mr. Harriman continues: "The president dwells at length on the assertion that he did not ask me to contribute for the presidential campaign nor for his personal benefit. I do not deny this statement; nor is it at all inconsistent with the assertions I made in the Webster letter respecting the interview. Therein I distinctly said: 'The president sent me a request to go to Washington to confer upon the political conditions in New York state. I complied and he told me he understood the campaign could not be successfully carried on without sufficient money and asked if I would help them in raising the necessary funds, as the national committee, under Chairman Cortelyou, had utterly failed of obtaining them and there was a large amount due from them to the New York state committee.'"

"If that means anything whatever, it must be that he was urging me to help the New York state committee and not the national committee or the presidential campaign, except so far as the success of the state ticket in New York would contribute to the national ticket."

## Helped Raise the Fund.

"What the condition of the finances of the New York state committee and of the national Republican committee at that time was is well known to every one. That the national committee did owe the state committee, and that the state committee was in financial straits, is notorious. I was asked to go to Washington by the president in the interests of the state ticket. I could help to raise money. That I did help in this regard, that I did raise funds, immediately upon my return from the interview, with the president, is undeniable and to this fund I contributed \$50,000. My interview with the president covered a wide range of subjects, connected with the New York state campaign, and I did not pretend to go over the whole matter in the Webster letter."

"I am not responsible for what Mr. Sherman may have said to the president with reference to the conversation he had with me. All that I have to say is that I did not meet his urgent requests that I contribute to his campaign fund and that the statements alleged to have been attributed to me by him were false. The president was assured of this fact by a mutual friend who was present at the interview."

## THE KING OF BLOOD PURIFIERS

For more than forty years S. S. S. has worn the crown of public approval and has been recognized as the King of Blood Purifiers. It has demonstrated its ability to CURE in thousands upon thousands of cases of blood and skin diseases until it is regarded today as the most reliable and safest of all blood medicines.

Pure blood means strong, vigorous bodies, well nourished systems, steady nerves, and all the machinery of life working in harmony with nature—thus insuring perfect health. Impure or diseased blood means the opposite of all this; any impurity, humor or poison in this vital fluid acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the various skin affections show that the blood is in a feverish and diseased condition, as the result of too much acid or the presence of some irritating humor. Chronic Sores and Ulcers are the result of morbid, unhealthy matter in the blood; while Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that continue to grow worse as long as the poisons which produce them remain in the blood.

All blood troubles are not acquired. Through the blood disease germs are transmitted from one generation to another. Parents hand down a tainted circulation to their children, and we see its effects manifested in various ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and, as the taint has been in the blood since birth, the entire health is usually affected, and the system weakened from want of nourishing, health-giving blood.

In all blood troubles S. S. S. has proven itself "The King of Blood Purifiers." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this life-stream pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic S. S. S. has no equal, and it will be found especially bracing to weak, anaemic persons.

**S.S.S.**  
PURELY VEGETABLE

Diseases, Scrofula, Contagious Blood Poison, and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years, or to be transmitted to offspring. If your blood is out of order begin the use of S. S. S., The King of Blood Purifiers, and restore this vital fluid to its normal healthy condition, and enjoy the blessing of good health. The one sure method of curbing the mail-order giant is to bind him with the things of home patronage. Are you helping him in this work? Are you spending your money at home and helping your town to grow, or are you sending it to the city to swell the fortunes of the mail-order man?

home merchant next time, and know what you get when you pass over the money for it. He may not be able to sell you what you thought you were buying from the mail-order house at the catalogue price, but he can sell you, if he has it, the same goods you get from the mail-order houses at an equal or less price than they ask for it, and what is more, he can sell you what you really want at as reasonable a price as you can get it for elsewhere.

The following letter, written by a Michigan farmer, explains in a clear and unmistakable way the danger of buying of mail-order concerns. It was addressed to one of the largest of this class of institution in this country:

Baldwin, Mich., Jan. 12, 1907.

Gentlemen:

I have your favor of recent date, and also your catalogues and accompanying circulars offering premiums for distribution of the same among my friends. I have no doubt that, as you say, I will thereby confer a great favor upon you, but I am compelled to take issue with you on the statement that I will also confer a favor upon my friends.

In my dealings with you, extending over some time past, I have received no favors from you—I paid for all I got, and the length of time I traded with you, instead of establishing friendly relations and gaining me additional favor as it would in a home store, gave you the opinion that, unlike a new customer, to whom you give your very best, so they will come again, I was a steady comer and any old thing would do for me.

Our last deal opened my eyes and convinced me of your policy. Your catalogues offer apparently great bargains. But let us draw up our chairs and see if there are not a few things very essential to the rural citizen that are not mentioned within its voluminous bulk.

For instance, there is no reference to paying cash or exchanging goods for wheat, oats, corn, beans, butter, eggs and hay.

How much will you pay for cattle, sheep and hogs, T. O. B., at Baldwin?

How much will you pay to support the Lake county schools and educate our children? How much for improving our roads and bridges? For supporting the poor? For the general public expense?

On what page do you offer to contribute money to the support of our churches?

What line of credit will you extend to me when my money is low because of sickness, or poor crops? What do you provide in the way of entertainment for the public and in the way of providing those things that make a town desirable and thus keep up the value of my property?

As a matter of fact, do you do anything to help locally, or do you merely take the money out of a community, returning nothing whatever, beyond the value of the goods bought? Thinking it over carefully, I believe it is

MORTUARY NEWS.

Mrs. Lucy Waldo.

As the result of a stroke of paralysis, suffered seven weeks ago, Mrs. Lucy Waldo passed away late yesterday afternoon at the home of her daughter, Mrs. A. J. Miller, 11 Dixon street. Born in Shattsbury, Bennington county, Vermont, January 15, 1822, the deceased, whose maiden name was Lucy Ann Hibbard, was the youngest of twelve children. All these, but one brother, Hiram Hibbard, of Ladysmith, Wis., have preceded her to the grave. On September 25, 1845, she was married to Alvah Helin Waldo at Sullivan, Jefferson county, Wis., and became the mother of eight children. Four have passed to the world beyond and the surviving are Mrs. Harry Howard and W. L. Waldo of Lenoir, S. D.; Mrs. A. J. Miller of this city and F. E. Waldo of Fulton, S. D. Mrs. Waldo died at Lenoir, four years ago and Mrs. Waldo's remains will be taken thither for burial at her side. The funeral will be held from the Miller home at half past four o'clock Thursday afternoon. Mrs. Waldo's demise will be mourned by many for she was a loving mother, a true friend, and one ever ready to do good. She was a Christian and church member of long standing, having united with the Baptist society at the age of twenty.

Mrs. William Swaney

Milton Junction, April 2.—Fannie I. Blaisdell was born in Juneau county, Wisconsin, May 25, 1859, and died at her home near Milton Junction, Saturday, March 30, 1907. She was one of a family of seven children, all but one of whom survive her. The family moved to Milton about forty years ago. Since then she has resided here. On Oct. 1, 1879, she was married to William Swaney, and since then had lived at the home a half mile south of Milton Junction. To them were born three children, Hazel, Sheldon and Earl, who with their father and Mrs. Swaney's brothers and sisters, have the sympathy of the whole community in their loss. Mrs. Swaney was taken ill last summer. Since then she had been gradually failing until a few weeks ago, when it became evident that the end was not far away. During her sickness, she had been tenderly cared for, one of her brothers—William Blaisdell—having come from his home in Minnesota to help in this loving ministry. Mrs. Swaney was a loving and faithful wife and mother, a true friend, a kind neighbor. She was an industrious woman, devoted to the welfare of her home and family. She will be missed by a large circle of friends who gladly bear witness to her devoted life. Funeral services were held at the M. E. church at Milton Junction at two o'clock last Monday. Rev. A. L. McClelland conducted the services, assisted by Rev. A. Porter. The choir of the Milton Junction church rendered the song service. The funeral was made doubly sad on account of the death of the granddaughter, Helen Hill, only the week before. The burial was in the Milton cemetery by the side of her mother's grave, where a large circle of friends gathered as a mark of love and sympathy.

Thomas Newman

Thomas Newman, an old resident of Rock county, died at his home in Clinton yesterday, and his remains will be brought to Janesville tomorrow for funeral services and burial. The last sad rites will be celebrated at St. Mary's church at half-past ten o'clock and interment will be in Mount Olivet. The deceased is survived by a wife and four children—J. T. Newman of Milwaukee, J. F. Newman of the town of La Prairie, Mrs. George Knipschield of the town of Turtle and Miss Alice M. Newman of Clinton. His demise is also mourned by a brother and two sisters—John Newman of Chicago, Miss Mary Newman of the same city, and Mrs. McCarthy of the town of Rock.

MADE AN AMAZING MIXUP.

Queer Assortment of Married Couples in Hungary.

After being employed for 40 years as valet to the male companion of his own wife, a man named Ruzicka, once wealthy, but now penniless and imbecile, has been received into the municipal workhouse of the town of Agram, in Hungary. Ruzicka, left an orphan with a good deal of property, married in 1863 Camilla Ostvic, a professional singer. Returning from the church, the bride introduced her husband to Dr. Theodor Sparcek, a lawyer. Sparcek brushed the bridegroom aside and walked on ahead, enjoying a tete-a-tete with the bride. In a little while he turned to the bridegroom and informed him that he (Dr. Sparcek) and the bride were going on a honeymoon trip. The rightful husband might come, too, if he acted as valet. The husband's poor wits seem to have been scattered forever by the announcement. He was helpless, and accompanied his wife on her elopement. In this manner all three lived uneventfully until 1885, when the woman died. Dr. Sparcek then lost no time in finding a new "wife," but seemed disinclined to marry himself. Under threats of dismissal from his valetship, the imbecile was obliged to go through the marriage ceremony for the second time. Another 21 years passed quietly, when suspicion was aroused by Sparcek selling Ruzicka's properties. The guilty lawyer then fled with the second Mme. Ruzicka, leaving his unfortunate "valet" absolutely penniless.

WINDOWS BEFORE THE DOOR.

Maid's Queer Idea of Providing Ingress for Firemen.

The things people do when they have a fire in the house would make a book full of exceedingly funny reading. The other day there was a fire out on Westminster place, and the maid, as is usual with maids, got very much excited, says the St. Louis Globe-Democrat. After the fire was extinguished she was relating incidents and declared that her first thought was to open all the windows. "I went and threw up every window," she said. "But," remonstrated the lady of the house, "why did you do that?" "Why, to let the firemen in," said Mary. "But couldn't they get in through the door?" asked the lady. "Oh, they never does," said Mary with conviction; "they never waits to go to the door, but jumps in through the windows," and she smiled in thinking of her own presence of mind in remembering the vagaries of firemen.

Royalty Avoids Strong Drink.

Queen Victoria of Spain does not know the taste of alcohol. Her special "lupule" is made from oranges—the fresh fruit squeezed into a glass, which is filled with aerated waters. Oranges are her favorite fruit. For years Princess Henry of Battenburg was a teetotaler, but of late she has suffered so much from rheumatism that she has been ordered to take a little whisky which she regards as a penance. Both Princess Christian's daughters, too, are teetotalers. All the children of the prince and princess of Wales are being brought up strict teetotalers, and they know nothing of alcohol. Princess Patricia of Connaught and her married sister, also abjure wine. Another royal teetotaler is the duchess of Argyll, and the two daughters of the princess royal, their highnesses Alexandra and Maud, have never in their lives touched wine.

Marrying Under the Gallows.

In olden days, if a man or woman would consent to marry under the gallows, a person condemned to death might thereby be saved from execution. This happened, according to an old English ballad, to a Chester merchant who was thus saved by a loving maiden. In 1784 a criminal at New York escaped in the same way. (And all readers of Victor Hugo's "Notre Dame" will remember that powerful and dramatic scene where Esmeralda saves Pierre Gringoire.) But Pinkerton records a case where the criminal refused to retain life in this way. The story of this intrepid refusal has been told in lines which bear quotation.

Placing Stamps Wrongly.

"The only way to stop people from plastering a stamp at any old place upon the envelope, except the right one, is to do as is done in England. There a letter which does not have the stamp in the right position is cast aside and handled only when all other mail is sorted and exchanged." This idea was advanced by a postal clerk. "We often lose considerable time because of these letters," continued the clerk, "for often we have to stop and turn over an envelope to find the stamp. The worst offenders in this respect are not foreigners, but those who have lived here for years."

Slight Misunderstanding.

Talking of German opera, the London Telegraph relates the story of a lady who brought her little son from the country the other day to witness the pantomime at Drury Lane, and took him by mistake to Covent Garden, where there was a matinee of "Lohengrin." "The opening of the first act," we are told, "was voted dull by both mother and son. But hope shone brightly when 'Lohengrin,' drawn by the swan, appeared, and little Johnny in excitement called out, 'Oh, mother, look at Sinbad chasing the duck.' Small wonder that 'devout Wagnerites,' who sat near, were 'upset.'"

Eyes and Exercise.

It was a matter of surprise to Emerson that the following little piece of advice by De Quincey should not have attracted more attention: "The depth and subtlety of the eyes varies exceedingly with the state of the stomach, and if young ladies were aware of the magical transformation which can be wrought in the depth and sweetness of the eye by a few weeks' exercise I fancy we should see their habits on this point altered greatly for the better."—Health Record.
